

Without You

MC MAGIC

Heyyyy
I don't live here anymore
Something in my heart is gone
You were there right from the start, I'm sorry but I have to go

What would I do without you girl
You are the best thing in my world
(The best thing in my world)
Me minus you is such a lonely life
(Turns out to be my worst enemy)
I need you right here by my side
(I can't deny that I need you girl, but check it)

I thought about it from the moment you walked out the door
Is there something that I can do to keep you home
I even blame myself if I could've treated you better
They told me be careful and I just said whatever
Cause every time that I was close to you
You made me feel like everything you said was really true
To hear your pretty voice and look inside your pretty eyes
I took you for an angel that could never tell a lie
But I guess that everything that shines is not a treasure
And now I know the truth that nothing really lasts forever
Thanks to you, I'll probably never trust again
I guess that's what I get for thinking you were my best friend
Is that what friends are for
To take your trust and everything you ever given
And walk right out the door like you did
Forgetting all your promises and chasing anything

What would I do without you girl
(I'm so sorry)
You are the best thing in my world
(Whoah oh)
Me minus you is such a lonely life
(Hey yeah)
I need you right here by my side
(I got a question for you girl)

Have you ever loved somebody so much that you can't sleep
And that person turns out to be the worst day
Like sleeping with the enemy, trust them with your life
And no matter how much you do that never satisfy
I know it's probably gon' take forever like a life time
And what good is beauty if she's ugly on the inside
And all those days we spent together, love songs made you cry
Everything you said turned out to be lie
And just remember we had a good thing
I can't believe I trusted you and made you my queen
Remember, one day somebody will do you the same
And when you sitting there you think about my name
But it'll be too late, I'm moving on to something better
Someone who deserves love that's real forever
I know that time heals the pain and I can't wait till that day

What would I do without you girl
(I'm so sorry)

You are the best thing in my world
(Yes, I know)
Me minus you is such a lonely life
(Oooh)
I need you right here by my side

What would I do without you girl
(Oh I know, I know)
You are the best thing in my world
(I must go, I must leave, I must go)
Me minus you is such lonely life
(Oh oh)
I need you right here by my side
