

# Hit It Hard

MC5

Unite the people no one gets disgraced  
We don't have to look the same  
We don't have to blame  
We wanna belong  
To the world and all its dreams  
Power grace can smack you in the face  
While knocking out your fear  
Let the people say hit it

Hit it hard

No one owns your body even though they try  
No matter how they change the rules  
Only you get to decide  
When we come together  
There's nothing we can't do  
You can speak your mind  
While you're shaking your ass too  
Let the people say hit it

Hit it hard  
Hit it hard  
Hit it hard  
Hit it hard

Can't hit what you can't see  
Can't just believe everything ya read  
Examine how you got what you got  
Fight the power try not to get shot  
Pound the streets with strength and pride  
No racist faces cause they just can't hide  
United motion that we feel inside  
Let me change the world  
Let us change the world

Hit it hard  
Hit it hard  
Hit it hard  
Hit it hard

Hit it hard  
Hit it hard  
Hit it hard  
Hit it hard

Hit it hard  
Hit it hard  
Hit it hard  
Hit it hard

When it comes to love  
Baby we're all equal here
