

## Sister Anne

MC5

Sister Anne don't give a damn about evolution  
She's a liberated woman, she's got her solution  
Like a dinosaur, she's going off the wall  
She's gonna make it her own crusade  
She's got a heart of gold  
Gonna save a bitch's soul  
From goin' down  
Satan's hot way  
She can, I know she can  
I know she can, she's my Sister Anne  
Such truth, such beauty, such purity  
She wears a halo around her head  
She's got the Ten Commandments tattooed on her arm  
If she died she'd rise up from the dead  
She's every man saviour and  
Mama too  
If you do it she said  
She'll save hell from you  
She can, I know she can  
I know she can, she's my Sister Anne  
Sister, won't you tell me where I went so wrong  
I used to say my prayers baby, all night long  
I'd listen to the Gospel ringing in my ears  
Come on Sister Anne, save me from my fears  
If you can, I know you can  
I know you can, you're my Sister Anne  
Sister, won't you tell me where I went so wrong  
I used to say my prayers baby, all night long  
I'd listen to the Gospel ringing in my ears  
Come on Sister Anne, save me from my fears  
If you can, I know you can  
I know you can, you're my Sister Anne  
After Sunday school Mass she goes to see her man  
She always does the best that she can  
She never tries to tease, she always aims to please  
She's gonna squeeze you tight and make you feel alright  
'Cause she can, I know she can  
I know she can, she's my Sister Anne  
I know she can, she's my Sister Anne  
I know she can, she's my Sister Anne  
She's my Sister Anne  
She's my Sister Anne  
She's my Sister Anne  
...
