

## Burning Vs. Drowning

McCafferty

They're bored, that's why she's always on her phone  
And we could stay here for the weekend, but I know I gotta get  
back home  
She says she hates her last name because it makes her feel like  
she belongs  
Her mother says she's not her favourite and her brother comes i  
n second maybe third, but she's in last  
And she will always be in last

In the blacklight I could tell a sick joke  
Do you think I'm funny, or was it something else  
And in the bathroom I could write your name down  
Are we all this desperate? I think the answer is "yes"  
And in the blacklight I could tell a sick joke  
Do you think I'm funny, or was it something else  
And in the bathroom I could write your name down  
Are we all this desperate? I think the answer is "yes", oh

In the living room your father says to me  
Through quiet simple words that this was meant to be  
So I will get my books and you could get the car  
And we could sleep here now, she says "I'm glad you broke my he  
art"  
And oh your airsoft gun is loaded and it's pointed towards my f  
ace  
And oh your eyes they meet my eyes, and oh your eyes are full o  
f hate  
They say "the grass is always greener on the other side"  
But sometimes the grass only is green until the grass has final  
ly died

And in the blacklight I could tell a sick joke  
Do you think I'm funny, or was it something else  
And in the bathroom I could write your name down  
Are we all this desperate? I think the answer is "yes"  
And in the blacklight I could tell a sick joke  
Do you think I'm funny, or was it something else  
And in the bathroom I could write your name down  
Are we all this desperate? Are we all this desperate?

"Forgot a fill, but, whatever."
