

# Butterfly

McCafferty

Fly, butterfly, fly  
Straight through the wall and through my mouth  
I will survive this broken winter in this house  
I can't provide but I can sure as hell try  
Fly, butterfly, fly  
Fly, butterfly, fly

Fly, butterfly, fly  
Straight through the wall and through my mouth  
I will survive this broken winter in this house  
I can't provide but I will try  
Fly, butterfly, fly  
Fly, butterfly, fly

Don't fly away, don't fly away  
Just stay with me and clip your wings  
She begs and pleads for him to stay  
But Peter Pan has changed his ways

Don't fly away, don't fly away  
Just stay with me and clip your wings  
She begs and pleads for him to stay  
But Peter Pan has changed his ways

Fly, butterfly, fly like you had to  
With the words on your arm from a tattoo  
Of the names of the bands that you love  
And the friend that you lost, and the girls that you saw

Us plus you equals terror, us plus you equals pain  
Us plus you equals all those things that I thought I could change

Us plus you equals terror, us plus you equals pain  
Us plus you equals all these things that I thought I could change
