

Cut Out The Pieces

McCafferty

I wanna go good god, go through me
I wanna say that I won't try
I wanna fuck with the fuckers that don't fuck much
I wanna fuck with the roots inside
I'll plant a seed like an angel that don't get no love
I'll plant a seed and we can watch it as it dies
I'll watch the city as it burns

I watch your feet hang from the rafters
I watch your family as they cry
I watch your mom say "Nothing is below me"
I watch your dad say "I didn't try"
This is my fault now, don't forget it
This is my fault now, don't you forget it
This is my fault now, don't forget it
This is my fault now, don't you forget it
This is my fault now, don't forget it
This is my fault now, don't you forget it
This is my fault now, don't forget it

This is my fault now, don't you forget it

The shapes followed me, the shapes followed I
The lights followed me up into the city sky
With your lipstick and your red dress
And your kind heart balanced with my dumb sick friends
That call when they shouldn't
When you fall, when you couldn't
Save them all from their mistakes
Ones you called, ones you prayed for

Please just crawl underneath my skin
It's all yours for the raising
Please just crawl underneath my skin
It's all yours for the taking
Please just crawl underneath my skin
It's all yours for the raising
Please just crawl underneath my skin
It's all yours for the taking

Hold on, wake up
Get drunk, get fucked up
And pass without me
You're so lovely

I am afraid of losing all my love
I am afraid of ending up alone
I am afraid of being on the road
I am afraid of losing all control
I am afraid of losing all my love
I am afraid of ending up alone
I am afraid of being on the road
I am afraid of, I am afraid of

Cut out the pieces, cut out the pieces
Cut out the pieces

And it was apples to apples, but you were lemons to apples
I am the ghost in your closet, I think your body don't want it
I am the past and the present, I saw the good and the evil
I am the angel and devil, the friend that still needs you
I am the boyfriend that cheated, you were the girlfriend that left you
I am the friend that you hated, I think your brother still loves you
And I was apples to apples, but you were lemons to apples
I am the ghost in your closet, I think your body don't want it
I am the past and the present, I saw the good and the evil
I am the angel and devil, the friend that still needs you
I am the boyfriend that cheated

And it turned out that no matter where the boy walked he could not find what
he was looking for
He searched high and low near and far, but he still could not find what was
missing
He asked the wind "why do I float through the air without a purpose?" And the
wind did not respond
So the boy continued to walk until he met a girl named Lindsay
The light of his world, the light of his heart
She said to him "you will never be alone again"
And he wasn't

WHAAAAA! The band is done! I swear to God, dude, I swear to God I'll break it
