

Drop From Our Windows

McCafferty

Well I hate talking about dorm rooms and moving out
I hate talking about the future because the future is right now
But I was desperate for your love, you were desperate for attention

We were destined to grow up, but I was scared without direction
Got a call from your mom, she said your brother hung himself
He said he could take his life and he couldn't find himself
And I got scared

I found a picture of my dad from when he's 19
This is stupid and it's sad that he is aging
But I can't stare in his eyes without feeling alive
Without begging for time I think I still need his advice

I knew a guy who knew guy that killed a girl
He said he didn't mind the way that she would breathe
He said he didn't mind the way that she would laugh at them
But he couldn't take the way that she would speak
Oh, how she spoke

Well I hate talking about dorm rooms and moving out
I hate talking about the future because the future is right now
But I was desperate for your love, you were desperate for attention
We were destined to grow up, but I was scared without direction
Got a call from your mom, she said your brother hung himself
He said he could take his life and he couldn't find himself
And I got scared

And it's a twelve foot drop to ground from my window
And I will probably jump if I can break the fall
And it's a twelve foot drop to ground from my window
And I will probably jump if I can break the fall
And it's a twelve foot drop to ground from our windows
And we will probably jump if we can break the fall
And it's a twelve foot drop to ground from our windows
And we will probably jump

Yeah
