

# Leatherface

McCafferty

This is mine, this is mine, this is my stupid life  
I get sad all the time, I get mad that I'm fine  
I get high in my mind, playing tricks like a ghost  
There's a room in my house where it's dark and I go

I am fine, I am fine, I feel sad all the time  
They don't know how it feels when you cut through the vine  
When your parents find out that you don't feel alive  
I can black out my eyes, I can black out my eyes

This is mine, this is mine, this is my stupid life  
I get sad all the time, I get mad that I'm fine  
I get high in my mind, playing tricks like a ghost  
There's a room in my house where it's dark and I go

I am fine, I am fine, I feel sad all the time  
They don't know how it feels when you cut through the vine  
When your parents find out that you don't feel alive  
I can black out my eyes, I can black out my eyes

You and me have such a good thing  
Too bad nothing lasts forever  
You could break my bones and I'd still  
Crawl into your lap forever

You can wear my skin if it fits  
I can be with you forever  
Empty out my eyes and I can  
Be with you my love forever

You and me have such a good thing  
Too bad nothing lasts forever  
You could break my bones and I'd still  
Crawl into your lap forever

You can wear my skin if it fits  
I can be with you forever  
Empty out my eyes and I can  
See with you my love forever

(There has to be a way to fix this)  
(There has to be a way to fix this)
