

Loser.

McCafferty

I saw the loser trip and fall
I saw his pictures in the hall again
I saw reflections of the mad
I think I'm finally getting sad again
Shit!

I saw the loser trip and fall
I think his parents took the fall
I saw the way his body goes
And yeah I finally found my place
Oh good God stand and take my place
I know the way it fucking goes
Motherfucker!

I know the loser found his place
It's kinda weird I know his face
I think it kinda looks like mine
She says her body knows the way
And everybody says the waste
Is just the way the body goes
Motherfucker!
