

Outlaw

McCafferty

Bully stand up, loser sit down
Everybody know I'm a king, without a crown
And the cut on your heart, mark on your face
Never should've come here in the fucking first place

I hate you and you hate me
Such a hateful family
And I could tell some lies to you
At the dinner I had to suffer through

Like I am gonna try again
To stop these drugs and change my friends
To try to make all the amends
For all the shit I never said
You realized you gotta change
You acted bad, you misbehaved
You got your way so have your way
Got your way so have your way

The farther I can reach
I'm such a fucking outlaw
There's blood inside the leech
For every sin and god fall
The fucking garden eats
All of the fucking good ones
And I could never sleep
Because the night is so fun

I hate you and you hate me
Such a hateful family
And I could tell some lies to you
At the dinner I had to suffer through

Like "Go on, get him, sister go
I can't do this shit alone"
I came from a broken home
So look at all my broken bones
Count me in but count me out
I know what this is about
I'm the next so get in line
Just let me have my fucking time

The farther I can reach
I'm such a fucking outlaw
There's blood inside the leech
For every sin and god fall
The fucking garden eats
All of the fucking good ones
And I could never sleep
Because the night is so fun

I hate you and you hate me
Such a hateful family
And I could tell some lies to you
At the dinner I had to suffer through
