

Scarecrow

McCafferty

Through the valley of death I walk
With a body that smells like rot
Scarecrow ain't got no brain
Rocks for miles
Desert rain

I can sense that evil is near
I can sense that the devil is here
I can see it on your face
Cut me open
Nothing's safe

You've got no boundaries man
But this here's country land
You know I won't think twice
Kill your family
Kill your wife

I've been gambling for gambler's stakes
Gotta keep my pockets laced
Gonna burn this whole town down
Kids can't drink when there's a drought

Gonna let you starve to death
Just like I let my friends
Once all the venom hits
I hope it finally clicks

You're done it's finished now
Scarecrow moves through this town
Scarecrow ain't got no brain
Death for miles
Desert rain

With your last dying wish
Will you ask for heaven's kiss
Will you finally barter now
Devil's thirsty
Time to drown

I can feel it in the air pa
I can see you in the air pa
I can feel you in the air pa
Scarecrow sits outside your room
Think he wants to play with you
