

## Scarecrow

McCafferty

Through the valley of death I walk  
With a body that smells like rot  
Scarecrow ain't got no brain  
Rocks for miles  
Desert rain

I can sense that evil is near  
I can sense that the devil is here  
I can see it on your face  
Cut me open  
Nothing's safe

You've got no boundaries man  
But this here's country land  
You know I won't think twice  
Kill your family  
Kill your wife

I've been gambling for gambler's stakes  
Gotta keep my pockets laced  
Gonna burn this whole town down  
Kids can't drink when there's a drought

Gonna let you starve to death  
Just like I let my friends  
Once all the venom hits  
I hope it finally clicks

You're done it's finished now  
Scarecrow moves through this town  
Scarecrow ain't got no brain  
Death for miles  
Desert rain

With your last dying wish  
Will you ask for heaven's kiss  
Will you finally barter now  
Devil's thirsty  
Time to drown

I can feel it in the air pa  
I can feel you in the air pa  
I can see you in the air pa  
Scarecrow sits outside your room  
Think he wants to play with you
