

The Lions Den

McCafferty

And this walk is longer than
I can remember
Your, your hands were cold
Just like my heart
And I feel you slipping
But I'm a hill made of ice
And I love to slip so let's slip together
And I love to slip so let's slip together

She says, this is just a bad dream, everybody wake up soon
We'll tie our red balloons to my car roof
Friction in your head, friction in mine
I still remember his eyes on mine
She says, this is just a bad dream, everybody wake up soon
We'll tie our red balloons to my car roof
Friction in your head, friction in mine
I still remember his eyes on mine

So let me break
For the love of God, let me break
Let me slip to the bottom of the hill
Let my body fall into the pit
Into the lion's den with you
Let me break
For the love of God, let me break
Let me slip to the bottom of the hill
Let my body fall into the pit
Into the lion's den with you

And it's the lion's den where you will live
And it's the lion's den where you will die
And it's the lion's den you wrote your name to
And it's the lion's den where you will cry
And it's the lion's den where you will live
And it's the lion's den where you will die
And it's the lion's den you wrote your name to
And it's the lion's den where you will cry
And it's the lion's den where you will live
And it's the lion's den where you will die
And it's the lion's den you wrote your name to
And it's the lion's den where you will cry

She says, this is just a bad dream, everybody wake up soon
We'll tie our red balloons to my car roof
Friction in your head, friction in mine
I still remember his eyes on mine
She says, this is just a bad dream, everybody wake up soon
We'll tie our red balloons to my car roof
Friction in your head, friction in mine
I still remember his eyes on mine

So let me break
For the love of God, let me break
Let me slip to the bottom of the hill
Let my body fall into this pit
Into the lion's den
Into the lion's den
