

## Top Hat

McCafferty

The room is dark, my head is spinning  
They say she's dead, I don't remember that  
But that's okay, I'll run away  
I'll do my time, you will remember me

I've got that long teeth, top hat  
Cape on, love that  
Oh, cross-eyed Nicholas  
Cross-eyed faggot  
I've got that long teeth, top hat  
Cape on, love that  
Oh, cross-eyed Nicholas  
Cross-eyed faggot

I'll pierce your brain, I'll cut your veins  
I'll drink your blood, and I will kill for fun  
We'll run away, but that's okay  
We'll stay the same, and we will never age  
I'll pierce your brain, I'll cut your veins  
I'll drink your blood, and we will kill for fun  
We'll run away, but that's okay  
We'll never age, and we will stay the same

I've got that long teeth, top hat  
Cape on, love that  
Oh, cross-eyed Nicholas  
Cross-eyed faggot  
I've got that long teeth, top hat  
Cape on, love that  
Oh, cross-eyed Nicholas  
Cross-eyed faggot

You've got a sick, you've got a sick mind boy  
And she's a good girl, she doesn't play with toys  
But it was ashes to ashes and we all fall down  
And you can mimic my language but you can't copy my sound  
I carved my eyes out and I placed them on my porch  
So I could see where I lived forever

I will know where I died forever  
I will drink your blood forever  
I will know where I lived forever  
I will know how I died forever  
I will drink your blood forever  
I will drink your blood forever

I will drink your blood forever  
I will drink your blood forever  
I will drink your blood forever  
I will drink your blood forever

I will know where I lived forever  
I will know where I died forever  
I will drink your blood forever  
I will drink your blood forever

I will drink your blood forever

I will drink your blood forever  
I will drink your blood forever  
I will drink your blood forever

A is for asshole  
B is for backstab  
C is for cute guys  
I can't get over  
D is for dad  
Everyone loves you  
F is for fuck  
G is for go and  
H is for hell  
Hell in my head  
And I can't let this go  
I can't let this go  
I can't let this go
