

# When The Lightning Hit

McCafferty

Hoo!

I'm not afraid, I'm not afraid  
I'm not afraid of the big bad wolf  
But, I'm not afraid, oh, I'm not afraid  
And I'm not afraid of the big bad wolf  
But I had a dream that I was asleep  
And when I woke up you were already gone  
I had a dream that I was asleep  
And when you woke up I was already gone

He plays games like I don't care and  
He plays games with hearts that are not his  
I have ideas for my friends but  
They don't listen, they don't listen

He plays games like I don't care and  
He plays games with hearts that are not his  
I have ideas for my friends but  
They don't listen, they don't listen

I know I'm not who I said I was  
But I tried so hard to repair your heart  
And the ice was thin like my patience was  
When the lightning hit, and the chemo caused  
You to lose your hair, so I cut mine off  
So we'd stay the same, and the cancer stopped  
Every cell in my brain  
Close my eyes, feel the rain on my face  
I'm not scared of the next step  
Of the next step  
Of the...

Fuck!

Wah!
