

Windmill

McCafferty

After hours, I could hang with you for hours
We could go up to the mall, maybe we could rob some stores
Snowing pretty bad so we'll probably take dad's car
Know that it's unlocked, I broke it with the crowbar
Eyes are made of coal, hair is made of clay
Mommy ran away so I will run away
I still play with dolls, specific dolls in mind
Kinda looks like you, kinda looks like mine

Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
I go where the girls dance, the drinks are free
I wanna know what it's like to not be me
Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
I go where the girls dance, the drinks are free
I wanna know what it's like to not be me

Say the owl sleeps at night
Don't get too close, bet he bites
Well, heaven hell inside my head
Can't save 'em all, but you can save your friends
Say the owl sleeps at night
Don't get too close, bet he bites
Well, go on in, go on, then
Drain all the blood from the hole in my head

Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
Wanna go where the girls dance, the drinks are free
I wanna know what it's like to not be me
Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
Wanna go where the girls dance, the drinks are free
I wanna know what it's like to not be me

Say the owl sleeps at night
Don't get too close, bet he bites
Well, heaven hell inside my head
Can't save 'em all, but you can save your friends
Say the owl sleeps at night
Don't get too close, bet he bites
Well, go on in, go on, then
Drain all the blood from the hole in my head

When I'm awake
When I'm awake
When I'm awake
When I'm awake

Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
Wanna go where the girls dance, the drinks are free
I wanna know what it's like to not be me
Over over and over and over over again
I wanna fuck with the party, I wanna fuck with the men
Wanna go where the girls dance, the drinks are free

I wanna know what it's like to not be me
