

Pouring blood at the winery  
She's not a witch but they say that she's gotta be  
Autumns here with the fallen leaves  
Winds up toy that you left in an apple tree

Tie him up, we're gonna cut his ears  
Once we drink his blood he'll age in a few years  
Bare your fangs like an animal  
Use self control when you drain from the neck hole

Forbidden love that can never be  
Witch's love witches, not vampires like me  
Drinking blood at the winery  
She's not a witch but they say that she might be

Tie him up, we're gonna use his tears  
This one can die, they get high off of our fears  
Bloody cup on our wedding day  
Witches and vampires cheer as the blood sprays

Bite my neck and I will treat you well  
Flick of the wrist, now I'm trapped under your spell  
We're like a movie that's stuck in time  
Hungry forever and sleep in the daytime

Could we please stop, I need some blood  
I close my eyes and I wait until you're done  
You smile at me and it's on your chin  
Witches love witches, not vampires like him
