Do Whatcha

Mcfly

Crash in to the room,
Scared to turn the lights on,
Like a ticking time bomb,
She's got a fuse,
Limit in the rush,
The one that kills the passion,
What's a boy to do,
Swore I'd never come back,
To this place of combat,
Tie me a knouse,
With your dirty heart strings,
Music in the dark scenes dark things,

Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,

Frozen to the bone,
I cannot remember much from that December,
Bruised and alone,
Caution through the rough tide,
Keep it on the inside this time,

Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha wan to me,
You want to me, you want to me, you want to me,

Kick me to the kerb,
Rip a hole in my heart,
And drag through the dirt by my soul from a car,
Hug me in the night like a wolf in the dark,
But watch out for that bitch called Karma!

Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,
Do watcha want do watcha want to me
Do watcha want do watcha want to me,
Do watcha want do watcha want to me,

Do whatcha want,
Do whatcha want,
Do whatcha want,
Do watcha want!
