

Down Down

Mcfly

Cruising down the highway
Radio is on
Heading back to my place tonight
Saw you trying to hitchhike
Said "hop in if you like"
That's when you took me for a ride

That's when you got a hold of me
And you had full control of me
Said "you wanna come home with me,
maybe we could get high"

I'm going down down baby
Down down lady
But I put your headband back up
I'm going down down honey
Down down love
I think you must be losing your touch
'Cause you can get me down down

Driving home to Trenton
Cars way up ahead
Couldn't keep your hands to yourself

Driving on the verges
Trying to fight the urges
As you're taking off my seatbelt

That's when you started touching me
And it all got too much for me
I was finding it hard to breathe
As you took me for a ride

I'm going down down baby
Down down lady
But I put your headband back up

I'm going down down honey
Down down love
I think you must be losing your touch

You push me down down baby
Down down lady
But I zip my trousers back up

I'm going down down honey
Down down love
I think you must be losing your touch
'Cause you can get me down down

Yeah yeah

I'm going down down baby
Down down lady
But I put your headband back up

I'm going down down honey

Down down love
I think you must be losing your touch

You push me down down baby
Down down lady
But I zip my trousers back up

I'm going down down honey
Down down love
I think you must be losing your touch
'Cause you can get me down

Down, down
Down, down

I think you must be losing your touch
'Cause you can get me down down
