

Forever's Not Enough

Mcfly

All of the Saturdays you walked out through the rain and made the train for me
My engine running in your driveway, didn't care, I didn't want to leave
Listening to KISS and sharing headphones in the dark looking for satellites
Smoking and drinking like we're grown up, now we're grown up we can dance all night

'Cause I know love is hard sometimes
Hearts they roll like thunder when they hit the ground
So let the summer rain fall down
Anything is possible with you around

Once more for us
Once more no giving up
We know tonight is all we're ever living for
We never wanna stop
Forever's not enough

We nearly lost each other running round the world following different dreams
Waiting for hours just to see you for a second on a lonely screen
Watching the sky without you I was lost but somehow I knew where to go
God gave us rock and roll so I could feel your soul and find my way back home

We get through the hardest times
'Cause we feel so electric when we work things out
So let the summer rain fall down
Anything is possible with you around

Once more for us
Once more no giving up
We know tonight is all we're ever living for
We never wanna stop
Forever's not enough
So come on once more for us
'Cause tonight is all I'm ever living for
I never wanna stop
Forever's not enough

Once more for us
Once more no giving up
We know tonight is all we're ever living for
We never wanna stop
Forever's not enough
So come on once more baby
You know tonight is all we're ever living for
I never wanna stop
Forever's not enough
