

## Growing Up

Mcfly

I can't shake this feeling that I'm paranoid  
I can't bring back friendships that I destroyed  
I slept in again, so I'm unemployed  
Over and over again

Think I'm gonna change to a better plan  
I was raised on music you don't understand  
Gonna live my life playin' in a band  
Let's get in, now get in the van

There's not much we can do about growin' old  
But plenty we can do about growin' up  
When all our parachutes have been shot full of bulletholes  
The best that you can do is not give a fuck

I picked a fight that I couldn't win  
And she kicked me cold like heroin  
I'll take my friends out on tour again  
Let's get in the get in the van

Never settle down never get it straight  
So wind me up 'til I detonate  
Turn the volume up 'til the level breaks  
Over and over again

There's not much we can do about growin' old  
But plenty we can do about growin' up  
When all our parachutes have been shot full of bulletholes  
The best that you can do is not give a fuck

There's not much we can do about growin' old  
But plenty we can do about growin' up  
When all our parachutes have been shot full of bulletholes  
The best that you can do is not give a fuck

The best that you can do is not a fuck
