

# Head Up

Mcfly

Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on

'94 on the floor in a smoky crowd  
Through the years, all my fears got deafening loud  
Counting down the time to '95  
Holding back the night with dynamite

Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on  
Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on

Twenty-three, now it's me hanging in the clouds  
Couldn't see history creeping back around  
When your darkest night's not satisfying  
I still walk the night with dynamite

Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on  
Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on

Na-na-na, na-na (I keep my head on)  
Na-na-na, na-na (I keep my head on)

Holding back the fight with spicy eyes  
Repeat mantra lines and hold on tight

Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on  
Yeah, I got one love to keep my head up  
To keep my head up, to keep my head up  
Yeah, I got one love to keep my head up  
To keep my head up, I keep my head on

Na-na-na, na-na (I keep my head on)  
Na-na-na, na-na (I keep my head on)
