Mcfly

First time I saw her she was standing in line  
Holding a book about compatible signs  
I should have talked to her  
I should have tried  
But I was breathless by the look in her eye  
She introduced herself as Kate and I replied,  
"It's nice to meet you" - it was love at first sight.  
I got excited, I lost my mind  
I lost the number that read "Let's have a good time", so

If you see Kate  
Tell her that I'm looking for her  
Cause she's so fine  
That girls been on my mind, ooh

I saw her friend that was in line that day  
And had to tell her how I felt about Kate  
She said, "Put her out your mind, or stand in line,  
I've seen her do this to men a thousand times"  
She had a rep for spreadin all her love around  
And everywhere she went Kate drew a crowd  
"Don't bother me, that's what I said  
Cause I can't seem to get that girl out of my head"

If you see Kate  
Tell her that I'm looking for her  
Cause she's so fine  
That girls been on my mind, ooh  
If you see Kate  
Tell her that I'm looking for her  
Cause she's so fine  
And she's been on my mind, ooh

If you see Kate  
Tell her I'm looking for her

Girl you're a star, shinin like the sun  
Whisper in my ear you broaden my horizons  
Stay with me, let's make it the longest day  
Pour yourself into my mouth  
I love the way you taste  
Pull you in tight  
It feels so right  
Girl I just wanna be the one  
To take you to heaven tonight  
Come on baby

Tell her that I'm askin' about her  
Cause she's so fine  
And she's been on my mind  
If you see Kate  
Tell her that I'm lookin' for her  
Cause she's so fine  
That girl's been on my mind...
