

# I'm Fine

Mcfly

This is where all the cracks appear  
In my atmosphere  
It's hard to breathe  
It's obvious people can be blunt  
And have sharper tongues  
Than razor teeth

What do you want, do you want from me?  
What do you want, do you want from me?  
What do you want, do you want from me?  
What do you want from me?

Do you wanna see me sad and out of my mind  
All my friends are all settled and doing just fine  
Do you wanna make me mad and hating on you  
Wish I could tell the truth, wish I could say fuck you

Say the words and they'll sit with me  
For eternity  
And plague my mind  
If your plan was to get to me  
Well you got to me  
I swear I'm fine

What do you want, do you want from me?  
What do you want, do you want from me?  
What do you want, do you want from me?  
What do you want from me?

Do you wanna see me sad and out of my mind  
All my friends are all settled and doing just fine  
Do you wanna make me mad and hating on you  
Wish I could tell the truth, wish I could say fuck you

I'm fine, I'm fine  
Yeah I'm doing just fine  
I'm fine, I'm fine  
Yeah I'm doing just fine

Do you wanna see me sad and out of my mind  
All my friends are all settled and doing just fine  
Do you wanna make me mad and hating on you  
Wish I could tell the truth, wish I could say fuck you

I'm fine, I'm fine  
(Jump in the deep end won't you)  
I'm fine, I'm fine  
(Jump in the deep end won't you jump)  
I'm fine, I'm fine  
(Jump in the deep end won't you)  
I'm fine, I'm fine  
Yeah I'm doing just fine
