

# Mess Around You

**Mcfly**

Feels like  
Sticking needles in my eyes  
Everytime we go to say goodbye  
Because, I'm a mess around you

And my  
Heart is beating double time  
Can't go on pretending I'll be fine  
Because, I'm a mess around you

This is no joke  
My body's starting to sweat  
And then I choke  
Then I open my mouth and I'm starting to say something that I k  
now I'll regret

Can you  
See what you're doing to me  
Please put me out of misery  
Because, I'm a mess around you

This is no joke  
My body's starting to sweat  
And then I choke  
Then I open my mouth and I'm starting to say something that I k  
now I'll regret

And when  
I'm about to give you up  
Then you smile and it is just my luck  
Can I tell I'm a mess around you

(No, no, no)  
This is just my luck and  
I'm a mess around you
