

## On The Run

Mcfly

You can think about it, talk about it but you wanna give me a try  
Your body's saying something that your head is trying to deny  
Been hurt too many times before baby know that I'm not that guy  
I will make you smile a thousand times for every tear that you've cried  
You say you need a doctor for a little pick me up  
Girl you don't need a doctor, I can heal you with my touch  
Don't hide it, don't fight it, just let me in control  
I can't hold on much longer cause I'm ready to explode

Oh.. gonna make you feel like you're the only one  
Oh.. gonna take that heart and melt it like the sun  
Oh.. gonna find a place through we can be alone  
So you don't have to be that love on the run...on the run, run.  
..  
Gonna make you want someone  
So you don't have to be that lover on the run

It's killing me to see ya this illusion that comes through the men's  
I'll make you a believer just have faith in me I'll be your man  
You say you need a miracle to get you through the night  
Honey you don't need a miracle cause I'll show you the light  
Don't hide it, don't fight it, just let me in control  
I can't hold on much longer cause I'm ready to explode

Oh.. gonna make you feel like you're the only one  
Oh.. gonna take that heart and melt it like the sun  
Oh.. gonna find a place through we can be alone  
So you don't have to be that love on the run...on the run, run.  
..  
Gonna make you want someone  
So you don't have to be that lover on the run
