Red

Mcfly

I saw two souls disappear in the night
Hit the ground, running like wolves from a fight
I never heard the last words that were said
But I saw the flash and
The colour was red
...
Yeah! Here in this ghost town
You're watching your back
Keep eyes on your shadow
The fear on attack
with hearts fuel-injected
with love they both fled
they lit up the night
and the colour was red
SING IT!

The colour was red

With spray on the street
And the wind in her hair
There's only the night
Between them and out there
A gut full of hope
But his mind's been misslead
He looked in her eyes
And the colour was red

Please, fill my veins
Feel this pain
When it rains
Through these flames
When it rains
Feel this pain
Red Has Never Looked So Beautiful (4x)

The colour was red (7x)
The colour was...!
