

Route 55

Mcfly

It was Route 55
When the roof came off and God we felt alive
Warmth like sun in your smile
With the softest lips and a glimmer in your eye
Cut to slow motion life
Like a movie scene where we're stuck at the end of time
Tried so hard to hold on
But my fingers slipped
And mama, my mama said

Forget about her, son
Just turn and run again
Forget about it, son
Yeah, just run, run, run until the end

We can drive forever
In the sun together
We'll be living in an endless summer
Ooh-ooh, woah-ooh

It was 2005
When we saw that band and God we felt alive
Drinking into the night
No long term plan and nothing to call mine
So I just say fuck it
Would you like to say fuck it with me
Tried so hard to move on
But my footing slipped
And mama, my mama said

Forget about her, son
Just turn and run again
Forget about it, son
Yeah, just run, run, run until the end

We can drive forever
In the sun together
We'll be living in an endless summer
Ooh-ooh, woah-ooh

We can drive forever
In the sun together
We'll be living in an endless summer
Ooh-ooh, woah-ooh
An endless summer

We can drive forever
In the sun together
We'll be living in an endless summer
An endless summer
An endless summer
An endless summer

It was Route 55
When the roof came off and God we felt alive
