

# Space Band

Mcfly

Didn't believe in aliens  
Until I saw some  
Getting beamed up into space  
Was pretty awesome

Let's rewrite history  
Forget all that you know  
We're not just kids from Earth  
So welcome to the show

We are the Space Band  
(Space Band)  
Rocking through the stars  
Light years across the universe  
A million miles from Mars

We are the Space Band  
(Space Band)  
Touring the unknown  
We don't need a star map  
'Cause the music guides us

We couldn't play well  
We were far from the best  
We never gave up  
And passed every rock-and-roll test

So clear your minds because  
We're coming into land  
We are not alone  
I finally understand

We are the Space Band  
(Space Band)  
Rocking through the stars  
Light years across the universe  
A million miles from Mars

We are the Space Band  
(Space Band)  
Touring the unknown  
We don't need a star map  
'Cause the music guides us home

Did you ever wonder?  
Wonder what it's like?  
If we work together  
And save the world tonight?

Let's rewrite history  
Forget all that you know, (know)  
We're not just kids from Earth  
So welcome to the show  
Welcome to the show

We are the Space Band  
Space Band

Rocking through the stars  
Light years across the universe  
A million miles from Mars

We are the Space Band  
(Space Band)  
Touring the unknown  
And we'll be here forever  
Like galaxy defenders  
We're the Space Band  
(Space Band)  
And the music (and the music)  
Yeah the music guides us home
