

Taking Back Tonight

Mcfly

Smash it up again
I bounce off the walls
Shout enough's enough
This place has to fall

Breaking out again
Like an animal
At the speed of sound
I run from it all

Boiling up
On the edge
Losing grip
What was up is down
Welcome to ghost town
So where do you go when there is no tomorrow

Gotta get back to something better
Gotta get back to something better

We're taking back tonight
All the dreams we left behind
We're taking back the dark before the light

Here we go again
We'd heard it before
Like a shotgun
Knocks you down to the floor

Wind me up again
I'm ready to roll
I'm a wrecking ball
That's out of control

Boiling up
On the edge
Losing grip
What was up is down
Welcome to ghost town
So where do you go when there is no tomorrow

Gotta get back to something better
Gotta get back to something better

We're taking back tonight
All the dreams we left behind
We're taking back the dark before the light
We're taking back tonight
All the dreams we left behind
We're taking back the dark before the light

Gotta get back to something better
Gotta get back to something better

We're taking back tonight
All the dreams we left behind
We're taking back the dark before the light

We're taking back tonight
All the dreams we left behind
We're taking back the dark before the light

You know it's gonna be
You know it's gonna be alright
