We're The Young

Mcfly

Listen!
We've got a situation
There always putting us down
We are the generation
Can't keep us underground

Is it my imagination
Or do you feel good

Were on a one way mission
We can take it all down
We are the sunshine nation
Go tell the satellites

Is it my imagination
Or do you feel good

What a day, What a day, What a day
What a day, What a day, What a day
What a day, What a day, What a day
What a day, these are the days

Running the world its the time of our lives
Baby we will never die
'Cos we're the young we're alright

We've gotta stop this feeling
Cos I don't wanna live twice
We better start believing
Before we run out of time

Oh!
Is it my imagination
Or do you feel good

What a day, What a day, What a day
What a day, What a day, What a day
What a day, What a day, What a day
What a day, these are the days

Running the world its the time of our lives
Baby we will never die
'Cos we're the young we're alright

[INSTRUMENTAL]

Alright, hey

Running the world its the time of our lives
Baby we will never die
Fight till we fall
Standing tall
Cos time is on our side
Cos we're the young we're alright

Yeah we're alright
Yeah we're alright

Yeah we're alright

Is it my imagination (Noo!)
Is it my imagination (Noo!)
Is it my imagination (Noo!)

We're the young we're alright
