REASON

MCND

Got me thinking, waiting, dreaming, you're the reason (Woop)

Got me talking 'bout my feelings
While the world is switching up just like the seasons, yeah
Ooh-ooh, I'm barely breathing
But we gotta keep it going, you're reason, yeah
Yeah, yeah we gotta work through the change
Even though now nothing's the same

But you know I'm steady holding on and holding out
All I really wanna do is see you now
Ooh-ooh, I'm barely breathing
Is it all up to fate? Is we is or we ain't?

I got my heart on the floor
Help me 'cause I don't wanna wait anymore
And now I'm dreaming about the day
When we find ourselves in a better place
'Cause even in the changing times
I know we're gonna be alright
And they could try to hold us back, try to hold us back
It's time to wake up, wake up

No, they'll never bring us down
Got me thinking, waiting, dreaming, you're the reason
They'll never bring us down
You're the reason, better speak it
Love is all we need, no, they'll never bring us down

Look how we're living, never envisioned
Separation and division
Come together, that's the mission
Need to reboot all the systems
How we gonna make this work?
I don't even have the words
But I'm knowin what you're worth
So, I gotta stay alert, yeah, yeah

What you gonna do when you look around?
If you wanna change gotta do it now
Ooh-ooh, I'm barely breathing
Is it all up to fate? Is we is or we ain't?

I got my heart on the floor
Help me 'cause I don't wanna wait anymore
And now I'm dreaming about the day
When we find ourselves in a better place
'Cause even in the changing times
I know we're gonna be alright
And they could try to hold us back, try to hold us back
It's time to wake up, wake up

No, they'll never bring us down
Got me thinking, waiting, dreaming, you're the reason
They'll never bring us down
You're the reason, better speak it
Love is all we need, no, they'll never bring us down
