

Moneypile

MDC

All over the continent
Are countries changing their names
A different face a brand new lie
The story stays the same

Power-struggles, money-grabs
Never ending wars
Sending people off to die
For the power whores

Who's on the money pile?
Wearing that different style
Who's on the money pile today?

Misinformation never really dead
Watch the propaganda beast
Rear its ugly head

A Wall comes down and all around
The world is filled with joy
A country too blind to see a re-election ploy

Read your history, the story just repeats
New number different name
The Reich remains the same

That's right! You've got the money
But you don't got me
You've got the money
But you don't got me
