

Rush for Gold

Me vs Hero

(Verse)

I glance back over my shoulders
The path that I have trailed just caught me sober
I've been infected by disorders, obsessed by details
If I could retrace my tracks, fill in the cracks
Put the wind back in my sails
I could get lost in my own thoughts
Straight beast, defending faults
My line is being warped
I don't think the same things anymore

(Chorus)

We all grow old, forget about these dreams we used to roam
We get caught up in the rush for the gold
(Wake up away from home)
We all grow old, forget about these dreams we used to love
We get caught up in the rush for the gold
(Wake up away from...)

(Verse 2)

Conversation grips me like it never did before
A constant adversary to the aching in my jaws
(Achin' in my...)
Someone please explain how the winds become unchained
My tank is feeling drained, I'm making friends with enemies

(Chorus)

We all grow old, forget about these dreams we used to roam
We get caught up in the rush for the gold
(Wake up away from home)
We all grow old, forget about these dreams we used to love
We get caught up in the rush for the gold
(Take all to wake up)

(Bridge)

I take myself back to what makes ?
(Take all) Take all that the ? that I misused
Set my own values, a feeling I can't let go
(Take all) Take all that the ? that I misused
Atoning descent, we used the world like we were gods
We were so ignorant
Never thought it would go to this

(Chorus)

We all grow old, forget about these dreams we used to roam
We get caught up in the rush for the gold
(Take all to wake up)
We all grow old, forget about these dreams we used to love
We get caught up in the rush for the gold
(Take all to wake up)
