

# We're Not Going Home (We Don't Care What Time It Is)

Me vs Hero

Nights like these make up the biggest part of  
There's a reason why i wont stop trying  
To be the one denying that its time for us to leave

And we're never gonna give it up  
'Give it up'  
This means the world to me that's why we'll never let it go  
'Let it go'

We'll play this story over make it better each time  
When the party's almost over no time to look back till the first  
light hits our eyes

We'll dance all night  
Underneath a star lit skyline  
These same old streets like maps to my feet  
Help me find my way back home  
This could be the last song  
Makes you wanna sing it sing it  
And when the last doors close  
We'll find a new place that we can call our own

And we're never gonna give it up  
'Give it up'  
This means the world to me that's why we'll never let it go  
'Let it go'

We'll play this story over make it better each time  
When the party's almost over we'll drink to our friends tonight  
We'll play this story over we'll burn so bright  
When the party's almost over no time to look back till the first  
light hits our eyes

Who know's where these roads will take us  
Not knowings what makes it the thrill of a shot in the dark  
Coz the feeling we get and the people we meet along the way  
We could never forget

We're not going home and we don't care what time is
