

Even If

Meadowlark

Why would I try?
And why would I stay?
'Cause you said I will, I will, I will, I will
I tried to believe you
But you went away
'Cause it's inevitable

'Cause even if
Even if I try to find a way
Yes even if I try
What would you do to me, babe?
'Cause even if
Even if I try to find a way
What would you do to me, babe?
What would you do to me, babe?

Look me in the eye
And stop playing your games
'Cause we're good until, until, until, until
I see you tonight
And then again and again
'Cause it's inevitable

Why am I here?
Keep bringing me back
And how can I leave with this in tact?

'Cause even if
Even if I try to find a way
Yes even if I try
What would you do to me, babe?
'Cause even if
Even if I try to find a way
What would you do to me, babe?
What would you do to me, babe?

Why am I here?
Keep bringing me back
And how can I leave with this in tact?
You're keeping me near
And holding me back
And how can I leave with this in tact?

'Cause even if
Even if I try to find a way
Yes even if I try
What would you do to me, babe?
'Cause even if
Even if I try to find a way
What would you do to me, babe?
What would you do to me, babe?
