

Fire

Meadowlark

I didn't know and I didn't care
A bust in your glow not blind unaware
We watch the seasons change from our home
I wish I felt the same but I don't

Fire in my heart went out when you decided to love
And the fire in my heart went out when you decided to love

The sun didn't rise a burdening sight
Light in your eyes felt pale like a knight
We watch the seasons change from our home
I wish I felt the same but I don't

And the fire in my heart went out when you decided to love
(Decided to love)
And the fire in my heart went out when you decided to love
(Decided to love)
Oh
Oh...
And I (decided to love)
(Decided to love)
(Decided to love)
(Decided to love)
And I I didn't know and I didn't care
But you told me grow
And you you, you should've known
You should've cared how was I to grow?

And the fire in my heart went out when you decided to love
(Decided to love)
And the fire in my heart went out when you decided to love
(Decided to love)
And the fire in my heart went out when you decided to love
(Decided to love)
And the fire in my heart went out when you decided to love
(Decided to love)
Oh
Oh
Oh
(Decided to love)
Oh
(Decided to love)
(Decided to love)
(Decided to love)
And the fire in my heart went out when you decided to love
