

I was sailing out at sea  
Finding it hard to believe there was a one for me  
I was looking at clouds in the sky  
Wondering how I was alive  
How did I survive?

Hello darling, where'd you come from?  
Got me out the blue and into the sun  
Mmm, mmm

I was searching for the shore  
Thinking of my before  
My own little war  
But you never can be sure  
When life's gonna give you more  
Babe, you're gonna soar

Hello darling, where'd you come from?  
Got me out the blue and into the sun  
Hello darling, where'd you come from?  
'Cause I don't feel as blue when I'm next to you  
Mmm, mmm  
Mmm, mmm

And I don't know if it's forever  
But I know it's for now  
And I don't know if it's forever  
But I know it's for now

(And I don't know if it's forever) Hello darling, where'd you come from?  
(And I don't know if it's forever) Got me out the blue and into the sun  
(And I don't know if it's forever) Hello darling, where'd you come from?  
(And I don't know if it's forever) 'Cause I don't feel as blue  
But I know it's for now

It was raining leaves when I said goodbye
