

## It Goes On

Meadowlark

I could be the light  
I could be the lover for you  
You just want a high  
You just want a body to lose

A stranger in my bed  
It's stranger in my head  
I fill up on you

So take it all from me  
Take my heart and let me be  
Oh just set me free  
This electricity has got me down upon my knees  
Oh just set me free

'Cause it goes on  
And it goes on  
And it goes on  
And it goes on

You could ask why  
I could just tell you the truth  
'Cause I'll believe a lie if I know it's coming from you

And I heard what they said  
You're danger in the red  
I fill up on you

'Cause it goes on  
And it goes on  
And it goes on  
And it goes on

I could be the light  
I could be the lover for you  
You just want a high  
You just want a body to lose  
I could be the light  
I could be the lover for you  
You just want a high  
You just want a body to lose

And it goes on  
And it goes on
