

# Like a Knife

Meadowlark

It cut through me like a knife, but it's life  
And what am I supposed to do?  
'Cause when you took away my eyes  
I was blind and didn't see it coming through  
And all of the lies you said over time  
Did they mean a thing to you?  
'Cause I'm paralyzed

It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife  
It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife

You think you've got it all  
Build your walls higher than the ones before  
But they've got pockets full of coal  
They say it's gold but they're the poorest of them all  
And all of the lies you said over time  
Did they mean a thing to you?  
'Cause I'm paralyzed

It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife  
It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife  
Oh, I can't remember the last time I felt like you  
It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife  
And you can try to tear us down

But you're never gonna take away our loudest song  
We'll build a choir for the tired and the silent ones  
You took away all our holy water and all our bricks and mortar  
But you lied, yeah you lied, yeah you lied  
You lied, yeah you lied, yeah you lied

And it cut through me like a knife, but it's life  
And what am I supposed to do?  
'Cause when you took away our eyes  
We were blind and didn't see it coming through

Oh, I can't remember the last time I felt like you  
It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife  
It cut through me like a knife  
Cut through me like a knife  
Cut through me like a knife
