

# Nowhere Fast

Meadowlark

Lucky enough  
To be on the edge of the inside  
Feeling enough  
To be here in real time and realise  
That I am enough  
And I'm only undone on the outside  
'Cause seeing is tough  
When linear time ain't on your side

Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast  
Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast

Falling asleep  
It's what I can count on myself for  
Forgetting to keep  
Moments like this for the restore  
And I'll store it there  
With your curly hair  
And your love for me that is not comparable  
To anything I've ever felt before

Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast  
Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast

And yes I love to imagine everything my heart desires but I know  
We're here in the glow  
And yes I love to watch a sunset with your face in mind but I know  
We're here in the glow

Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast  
Don't you know the time is now?  
There ain't no other time about  
Living in the future  
Living in the past  
You'll get nowhere fast
