

Sail Away

Meadowlark

Over time I have found
A silence louder than sound
And everything that I heard last year
Standing alone with no one but my fear

So let me fall down with your love
Let me fall down with your love
Time to sail away, sail away, out of your arms
To sail away, sail away out of your

I tried to
Believe you
Won't do this all again
Sail away out of your arms

Tethered hands cover part
Your little lies in the dark
I didn't know how the end would feel
But for what it was worth it's never felt real

So let me fall down with your love
Let me fall down with your love
Time to sail away, sail away out of your arms
To sail away, sail away out of your

I tried to
Believe you
Won't do this all again
Sail away out of your arms

You were my home
You were my home
You were my whole world
You were my home
You were my home
You were my whole world
Time to sail away, sail away out of your arms
To sail away, sail away out of your

I tried to
Believe you
Won't do this all again
Sail away out of your arms
