

# Sunlight

Meadowlark

Say the words you're gonna say  
The words you're gonna say  
Just let 'em out  
Could fight until we let go tonight  
Shade, the middle of the day  
The middle of the day  
I hear you out  
I've never felt so hollow

But if you're only going one night  
I'll let you in before the sunlight  
And if you're only going one night  
I'll let you in before the sunlight, sunlight

Stay, body in the way  
Together as we lay  
We let it out  
Brave the love we borrow tonight, oh  
May we dazzle in the rays  
The sun, a little rain  
And we pour it out  
Rain until we let go

Cause if you're only going one night  
I'll let you in before the sunlight  
And if you're only going one night  
I'll let you in before the sunlight  
And all we ever do is count lies  
And we sink low to feel a real high  
But if you're only going one night, one night  
Oh sunlight, sunlight  
Sunlight, sunlight

This will only get harder if we slow down  
This will only get harder  
This will only get harder if we slow down  
This will only get harder  
If we slow down

Cause if you're only going one night  
I'll let you in before the sunlight  
And if you're only going one night, one night  
Oh sunlight, sunlight  
And all we ever do is count lies  
And we sink low to feel a real high  
But if you're only going one night, one night  
Oh sunlight, sunlight  
Sunlight, sunlight
