

# You Got Out

Meaghan Smith

Word finally reached me today  
Babe, I can't believe what they've been saying  
That you got out  
I don't know how, but you got out  
I can't waste me time sitting here  
I gotta be somebody new and disappear  
Cause you got out  
I don't know how, but you got out  
Well, I may have turned you in  
But you turned right back around  
You got out  
I wanna try to remember to forget  
I'm gonna take everything but my regrets  
Cause you got out  
I don't know how, but you got out  
Well, I may have turned you in  
But you turned right back around  
You got out  
You got out  
You got out  
You got out
