

## Break the Limit

## Mean Streak

Who's laughing now in the end  
I don't even know where to begin  
Always heard that it couldn't be done  
We were following the voice within

We are moving you are left behind  
Nomads  
The restless kind  
Here we are after all this time  
Still rolling  
Still alive

There's no return  
There's no surrender - no way  
There's no way back  
To where we came from  
So hear me when I say

Break the limit  
Set the stage  
Let it all out and let it go  
Break the limit  
Turn the page  
You know what you gotta do

Like a haven in an endless night  
Into the dark, bringing the light  
No remorse, no regret  
What you see is what you'll get

There's no return  
There's no surrender - no way  
There's no way back  
To where we came from  
So hear me when I say

Break the limit  
Set the stage  
Let it all out and let it go  
Break the limit  
Turn the page  
You know what you gotta

Break the limit  
Set the stage  
Let it all out and let it go  
Break the limit  
Turn the page  
You know what you gotta do
