

Cast Away

Mean Streak

In the mirror, pictures pass me by
I don't know know the reasons, I don't know why
I was forsaken, kept out since that day
The undesired you gave away

Why you left me, turned and walked away
I still wonder 'till this day
Castaway

Forever gone now, but I'm still standing here

Forever gone now, but I'm still standing here
With all my pain and all my fear
With boys of my own, you never got to know
I'll never leave, won't let go

Why you left me, turned and walked away
I still wonder 'till this day
Castaway

You are forgiven, there is no other way
That I can face, another day
