

Let Love Rain

Mean Streak

Let's get down tonight, sins in blood red light
The center of attention, so let's go all the way
You whisper the sweetest lies, and that fire in your eyes
I'm moving our heartbeat, ready to explode

Take me all the way and I won't let go
Let me in baby cause I need it so
Show me what you got, honey do your things
Let it all out and spread your wings

Let your love come down on me
Let fate be in control
Let love rain, and set me free
Pour fire to my soul
Let love rain

Now let your magic flow
Don't stop 'till I tell you so
You're the main attraction
The devil and the saint
Got me all fired up
Come on, don't ever stop
You know just what I need
You got just what I want

So take me all the way and I won't let go
Let me in baby cause I need it so
Show me what you got, honey do your things
Let it all out and spread your wings

Let your love come down on me
Let fate be in control
Let love rain, and set me free
Pour fire to my soul
Let love rain
