

# Thunderbolt

## Mean Streak

Like a mean machine, on the road to hell  
We'll make the cut so clean, you'll never live to tell

We're coming on tonight  
The writing's on the wall  
We're gonna start a fight  
We will invade you all

(Hey - hey)  
Down and out, coming down, like a thunderbolt  
(Hey - hey)  
Let it all out, coming down - like a thunderbolt

An eternal fight, the only way we know  
Another town tonight, still the same old show

We're coming on tonight  
The writing's on the wall  
We're gonna start a fight  
We will invade you all

(Hey - hey)  
Down and out, coming down, like a thunderbolt  
(Hey - hey)  
Let it all out, coming down - like a thunderbolt
