

We Are One

Mean Streak

This is the time of revelations
Cause every dawning brings the light
And everywhere across our nations
We will arise we will unite

So in the cold and darkest hour
And in the blackest of the night
We will ignite the rising power
Cause out of darkness comes a light

We are one, defending our ground
Stick to our guns forever inbound
We are one, take on the fight
Take on the fire that burns in the night

We stand tall, when everyone else will
Betray, nothing will keep us apart
We won't fall, on through the night
Rise from the dark, we are one

This is the moment long awaited
That will forever be recalled
You are the troopers in the frontline
We the believers standing tall

So in the cold and darkest hour
And in the blackest of the night
We will ignite the rising power
Cause out of darkness comes a light

We are one, defending our ground
Stick to our guns forever inbound
We are one, take on the fight,
Take on the fire that burns in the night

We stand tall, when everyone else will
Betray, nothing will keep us apart
We won't fall, on through the night
Rise from the dark, we are one
