

# Only When I Feel

Meat Loaf

There are things I have come to believe  
Since the new resurrection of love  
There are visions I finally see  
There are signs everywhere, they're below and above

There are things that I finally know  
There are secrets and dreams never seen in the light  
We are suddenly plunged in the dark  
Our soul is a beast that goes bump in the night

There are endless nights  
They just go on forever  
There are scars on scars  
That I know will never heal

There's relentless pain  
It tortures me forever  
I've got to pretend it ain't real

But at least it only hurts  
At least it only hurtsâ€¦ only when I feel

It hurts only when I feel
